RE: TR #12962
Execution of Agreement with
BLD Services, LLC
Wastewater Inflow &
Infiltration (I & I) Lateral
Lining Project
Bid No. 17-11B

RECOMMENDATION:

I recommend that the City Commission authorize the funding and awarding of Bid No. 17-11B in the amount of \$7,700,635.00 to BLD Services, LLC, the most responsive and responsible bidder, for the Wastewater I & I Lateral Lining Project.

ISSUE:

Execution of a FY17 agreement between the City of Tamarac and BLD Services, LLC for the continuation of the Wastewater I & I Lateral Lining Project.

BACKGROUND:

In 2012, the Tamarac City Commission approved a Wastewater Master Plan Study which prioritized wastewater pump station basins which have excessive I & I. The master plan's objective is to rehabilitate the City's sewer system to reduce wastewater treatment costs to Broward County. The City's wastewater disposal cost for the last five fiscal years to Broward County decreased from a peak of \$5,663,076.00 in FY 2012 to an average of \$5,085,718.00 for the last four fiscal years. These decreases have occurred as a direct result of the aggressive I & I Program implemented by the City four years ago. Wastewater disposal costs are still consuming approximately 20% of the Public Services FY 2017 budget and an aggressive I & I abatement program is required to control these costs. Mathews Consulting completed a master plan on an accelerated I & I program. This plan has defined projected expenditures and the return on investment of reduced wastewater disposal costs and specifically addresses lining of laterals.

The completion of the Inflow and Infiltration items identified in the 2012 Wastewater Master Plan completed by Mathews Consulting has been broken into three (3) distinct projects which will be funded by the \$11,000,000.00 Wastewater Bond issued in November 2016.

Specifically, they include the Execution of an agreement with VacVision Environmental, LLC for the Wastewater Manhole Rehabilitation I & I Project for \$1,683,215.94; placed

on the April 26, 2017 agenda and was approved by the Commission, also includes the Execution of an agreement with SAK Construction, LLC for the Wastewater Cured-In-Place Main Pipe Lining I & I Project for \$2,181,267.90; placed on the May 10, 2017 agenda and was approved by the Commission, and the Final Project is Wastewater I & I Lateral Lining which is recommended to be awarded to BLD Services, LLC for the balance remaining in the \$11,000,000.00 Bond.

BLD Services, LLC has successfully lined 1,394 laterals as a contractor working under the SAK Construction, LLC contract in the City of Tamarac.

In FY 2017 & FY 2018, this project will provide for the lateral lining of 2,752 wastewater sewer service laterals that will be completed in the following Subdivisions:

- Mainlands 8
- Heathgate
- Les Chateaux, The Pines at Woodmont, and the Cypress Club at Woodmont
- Sabal Palm Village, Lakes of Carriage Hills, and Golf Villas at Sabal Palm
- Westwood 3 and 7
- Courtyards of Broward
- Mainlands Sections 2, 3, 4, 5, 5A, 6, 6A, and 7
- Bermuda Club Condos
- Buttonwood at Woodmont
- Woodlands
- Mainlands 9
- Westwood 4 and 4A
- Village at Woodland Lake, Woodglen Condos, Woodland Estates, and The Courts
- Tamarac Lakes South
- Shaker Village, Woodland Green, and Woodland Meadows
- Forsyth, Faircrest, and Greenbriar
- The Boulevards
- Concord Village
- Lime Bay 1 and 2

The lining of the 2,752 laterals will be completed by the personnel of BLD Services, LLC along with a Public Services representative on-site to ensure quality control.

The City of Tamarac publicly advertised Bid No. 17-11B, for the Wastewater I & I Lateral Lining Project on February 27, 2017 in the Sun Sentinel and on March 23, 2017

received, opened and reviewed three (3) bids as follows:

COMPANY NAME	TOTAL BID \$
National Water Main Cleaning Co.	\$6,544,110.00
BLD Services, LLC	\$7,700,635.00
LMK Pipe Renewal LLC	\$9,632,130.00

National Water Main Cleaning Co. was the lowest bidder but the bidder could not demonstrate any Lateral Project Work in the State of Florida which was mandatory with the Bid Request and thus National Water Main Cleaning Co. was deemed unqualified to bid this project.

BLD Services, LLC was deemed the most responsive and responsible bidder with a Bid Proposal of \$7,700,635.00.

FISCAL IMPACT:

The Lateral lining part of the Wastewater I & I Project is the third part of the \$11,000,000.00 in new money bonds issued on November 9, 2016 as part of a larger Utility Refunding bond issue. The new money in the amount of \$11,000,000.00 was issued for the purpose of accelerating the Wastewater I & I Program completion over a shorter period to take advantage of savings in the City's wastewater disposal costs. Separate resolutions for Wastewater Manhole and Mainline Lining Rehabilitation work in the amount of \$3,680,460.80 plus 5% Contingency (\$184,023.04) for a project total of \$3,864,483.84 was previously approved by Commission. This Wastewater I & I Lateral Lining Project will require \$7,700,635.00 to complete the Scope of Work of which \$7,135,516.16 will come from 2016 Wastewater Bond proceeds and an additional appropriation of \$565,118.84 will come from the Utility Renewal and Replacement Fund and will be included in a budget amendment prior to November 30, 2017 pursuant to F.S. 166.241(2).

CITY OF TAMARAC, FLORIDA

RESOLUTION NO. R-2017-_____

A RESOLUTION OF THE CITY COMMISSION OF THE CITY OF TAMARAC, FLORIDA, AWARDED BID NO. 17-11B TO BLD SERVICES, LLC, AND AUTHORIZING THE APPROPRIATE CITY OFFICIALS TO EXECUTE THE AGREEMENT BETWEEN THE CITY OF TAMARAC AND BLD SERVICES, LLC, FOR AN AMOUNT OF \$7,700,635.00 FOR THE WASTEWATER I & I LATERAL LINING PROJECT LOCATED IN MULTIPLE AREAS WITHIN THE CITY OF TAMARAC; AUTHORIZING AN ADDITIONAL APPROPRIATION OF \$565,119; PROVIDING FOR CONFLICTS; PROVIDING FOR SEVERABILITY; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City of Tamarac conducted a Wastewater Master Plan Study in 2012, excessive inflow & infiltration (I & I) was identified by wastewater pump station basins; and

WHEREAS, \$11,000,000.00 in new money bonds was issued in November 2016 for the Wastewater I & I Lateral Lining Project and the lateral lining is the largest part of this project. This Project will complete the 2012 Wastewater Master Plan recommendations to reduce excessive I & I within the City of Tamarac; and

WHEREAS, the lining of the laterals is necessary to eliminate the I & I that is present in the laterals and will eliminate root intrusions that can cause other serious issues; and

WHEREAS, the Public Services Department FY17 locations for lateral lining will be completed in Mainlands Sections 2, 3, 4, 5, 5A, 6, 6A, 7, 8, and 9, Heathgate, The Pines of Woodmont, Cypress Club at Woodmont, Sabal Palm Village, Lakes of Carriage Hills, Westwood 3, 4, 4A, 7, and 24, Courtyards of Broward, Bermuda Club condos, Buttonwood at Woodmont, Villas at Woodmont, Woodlands, Village at Woodland Lake,

WHEREAS, the City of Tamarac publicly advertised Bid No. 17-11B for the Wastewater I & I Lateral Lining Project in the Sun-Sentinel on February 27, 2017 (incorporated by reference and on file in the office of the City Clerk); and

WHEREAS, the City solicited competitive bids and on March 23, 2017, received, opened and reviewed three (3) bids as follows:

COMPANY NAME	TOTAL BID \$
National Water Main Cleaning Co.	\$6,544,110.00
BLD Services, LLC	\$7,700,635.00
LMK Pipe Renewal LLC	\$9,632,130.00

A copy of the Bid Tabulation is included herein as "Exhibit A"; and

WHEREAS, National Water Main Cleaning Co. was the lowest bidder but the bidder could not demonstrate any Lateral Project Work in the State of Florida which was mandatory with this Bid Request and thus National Water Main Cleaning Co. was deemed unqualified to Bid this project; and

WHEREAS, BLD Services LLC, was deemed the most responsive and responsible bidder (a copy of said bid is on file with the City Clerk's Office); and

WHEREAS, funding for this project in the amount \$7,700,635.00 is available from the \$11,000,000.00 2016 bond proceeds and the Utility Renewal and Replacement Fund; and

WHEREAS, it is the recommendation of the Director of Public Services and Purchasing and Contracts Manager that the appropriate City Officials award Bid No. 17-11B, the Wastewater I & I Lateral Lining Project, and to execute an agreement with BLD Services, LLC, for a contract cost of \$7,700,635.00 for this Wastewater I & I Lateral Lining Project; and

WHEREAS, the City Commission of the City of Tamarac, Florida, deems it to be in the best interest of the citizens and residents of the City of Tamarac to approve the award of Bid No. 17-11B, Wastewater I & I Lateral Lining Project and to execute an agreement with BLD Services, LLC, for a contract cost of \$7,700,635.00.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF TAMARAC, FLORIDA, THAT:

SECTION 1: The foregoing "WHEREAS" clauses are hereby ratified and confirmed as being true and correct and are hereby made a specific part of this resolution upon adoption hereof. All exhibits attached hereto are incorporated herein and made a specific part hereof.

SECTION 2: The City Commission hereby awards the lateral lining contract to BLD Services, LLC, in an amount not to exceed \$7,700,635.00.

SECTION 3: The appropriate City Officials are hereby authorized to execute an agreement between the City of Tamarac and BLD Services, LLC, (a copy of which is attached hereto as "Exhibit B") as part of said award.

SECTION 4: An expenditure for a contract cost of \$7,700,635.00 is hereby approved.

SECTION 5: The City Manager, or his designee, is hereby authorized to approve and initiate Change Orders in amounts not to exceed \$65,000 per Section 6-147 of the City Code, and close the contract award, which includes, but is not limited to, making final payment and releasing bonds per Section 6-149 of the City Code, when the work has been successfully completed within the terms, conditions and pricing of the agreement.

SECTION 6: An appropriation in the amount not to exceed \$565,119 is hereby approved and will be included in a Budget Amendment prior to November 30, 2017 pursuant to F.S. 166.241(2).

SECTION 7: All resolutions or parts of resolutions in conflict herewith are hereby repealed to the extent of such conflict.

SECTION 8: If any clause, section, other part or application of this Resolution is held by any court of competent jurisdiction to be unconstitutional or invalid, in part or application; it shall not affect the validity of the remaining portions or applications of this Resolution.

SECTION 9: This Resolution shall become effective immediately upon its passage and adoption.

PASSED, ADOPTED AND APPROVED this _____ day of _____,
2017.

I & I SERVICE FOR LATERALS
BETWEEN THE CITY OF TAMARAC
AND
BLD SERVICES, LLC

THIS AGREEMENT is made and entered into this ____ day of _____, 20**17** by and between the City of Tamarac, a municipal corporation with principal offices located at 7525 N.W. 88th Ave., Tamarac, FL 33321 (the "CITY") and **BLD SERVICES, LLC**, a Florida corporation with principal offices located at **2424 TYLER STREET KENNER, LA 70062** (the "Contractor") to provide for **I & I Service for Laterals**.

Now therefore, in consideration of the mutual covenants hereinafter set forth, the City and Contractor agree as follows:

1) The Contract Documents

The Contract Documents consist of this Agreement, Bid Document No. **17-11B**, including all conditions therein, (General Terms and Conditions, Special Conditions and/or Special Provisions), drawings, Technical Specifications, all addenda, the Contractor's bid/proposal included herein, and all modifications issued after execution of this Agreement. These contract documents form the Agreement, and all are as fully a part of the Agreement as if attached to this Agreement or repeated therein. In the event that there is a conflict between Bid **17-11B** as issued by the City, and the Contractor's Proposal, **17-11B** as issued by City shall take precedence over the Contractor's Proposal. Furthermore, in the event of a conflict between this document and any other Contract Documents, this Agreement shall prevail.

2) The Work

2.1. The Contractor shall perform all work for the City required by the contract documents as set forth below:

2.1.1 Contractor shall furnish all labor, materials, and equipment necessary to complete the scope of work, as outlined in the contract documents. **17-11B**

2.1.2 Contractor shall supervise the work force to ensure that all workers conduct themselves and perform their work in a safe and professional manner. Contractor shall comply with all OSHA safety rules and regulations in the operation of equipment and in the performance of the work. Contractor shall at all times have a competent field supervisor on the job site to enforce these policies and procedures at the Contractor's expense.

2.1.3 Contractor shall provide the City with seventy-two (72) hours written notice prior to the beginning of work under this Agreement and prior to any schedule change with the exception of changes caused by inclement weather.

2.1.4 Contractor shall comply with any and all Federal, State, and local laws

and regulations now in effect, or hereinafter enacted during the term of this Agreement, which are applicable to the Contractor, its employees, agents or subcontractors, if any, with respect to the work and services described herein.

3) Insurance

- 3.1.** Contractor shall obtain at Contractor's expense all necessary insurance in such form and amount as specified in the original bid document or as required by the City's Risk and Safety Manager before beginning work under this Agreement including, but not limited to, Workers' Compensation, Commercial General Liability, Builder's Risk and all other insurance as required by the City, including Professional Liability when appropriate. Contractor shall maintain such insurance in full force and effect during the life of this Agreement. Contractor shall provide to the City's Risk and Safety Manager certificates of all insurances required under this section prior to beginning any work under this Agreement. The Contractor will ensure that all subcontractors comply with the above guidelines and will retain all necessary insurance in force throughout the term of this agreement.
- 3.2.** Contractor shall indemnify and hold the City harmless for any damages resulting from failure of the Contractor to take out and maintain such insurance. Contractor's Liability Insurance policies shall be endorsed to add the City as an additional insured. Contractor shall be responsible for payment of all deductibles and self-insurance retentions on Contractor's Liability Insurance policies.

4) Time of Commencement and Substantial Completion

- 4.1** The work to be performed under this Agreement shall be commenced after City execution of the Agreement and not later than ten (10) days after the date that Contractor receives the City's Notice to Proceed. The work shall be completed within Five Hundred Forty Seven (547) days from issuance of City's Notice to Proceed, subject to any permitted extensions of time under the Contract Documents. For the purposes of this Agreement, completion shall mean the issuance of final payment.
- 4.2** During the pre-construction portion of the work hereunder, the parties agree to work diligently and in good faith in performing their obligations hereunder, so that all required permits for the construction portion of the work may be obtained by the City in accordance with the Schedule included in the Contract Documents. In the event that any delays in the pre-construction or construction portion of the work occur, despite the diligent efforts of the parties hereto, and such delays are the result of force majeure or are otherwise outside of the control of either party hereto, then the parties shall agree on an equitable extension of the time for substantial completion hereunder and any resulting increase in general condition costs.

5) Contract Sum

The Contract Sum for the above work is Seven Million Seven Hundred Thousand Six Hundred Thirty Five Dollars and Zero cents (\$7,700,635.00).

6) Payments

Payment will be made monthly for work that has been completed, inspected and properly invoiced. A retainage of ten percent (10%) will be deducted from monthly payments until 50% of the project is complete. Retainage will be reduced to five percent (5%) thereafter. Retainage monies will be released upon satisfactory completion and final inspection of the work. Invoices must bear the project name, project number, bid number and purchase order number. City has up to thirty (30) days to review, approve and pay all invoices after receipt. The Contractor shall invoice the City and provide a written request to the City to commence the one (1) year warranty period. All necessary Releases of Liens and Affidavits and approval of Final Payments shall be processed before the warranty period begins. All payments shall be governed by the Florida Prompt Payment Act, F.S., Part VII, Chapter 218.

7) Remedies

7.1 Damages: The City reserves the right to recover any ascertainable actual damages incurred as a result of the failure of the Contractor to perform in accordance with the requirements of this Agreement, or for losses sustained by the City resultant from the Contractor's failure to perform in accordance with the requirements of this Agreement.

7.2 Correction of Work: If, in the judgment of the City, work provided by the Contractor does not conform to the requirements of this Agreement, or if the work exhibits poor workmanship, the City reserves the right to require that the Contractor correct all deficiencies in the work to bring the work into conformance without additional cost to the City, and / or replace any personnel who fail to perform in accordance with the requirements of this Agreement. The City shall be the sole judge of non-conformance and the quality of workmanship.

8) Change Orders

8.1 Without invalidating the contract, without any monetary compensation, and without notice to any surety, the City reserves and shall have the right to make increases, decreases or other changes to the work as may be considered necessary or desirable to complete the proposed construction in a satisfactory manner. The Contractor shall not start work pursuant to a change order until the change order setting forth the adjustments is approved by the City, and executed by the City and Contractor. Once the change order is so approved, the Contractor shall promptly proceed with the work. All Change Orders shall include overhead and profit, not to exceed five percent (5%) and five percent (5%) respectively.

8.2 The Contract Price constitutes the total compensation (subject to authorized adjustments, if applicable) payable to the Contractor for performing the work. All duties, responsibilities and obligations assigned to or undertaken by the Contractor shall be at Contractor's expense without change in the Contract Price or Time except as approved in writing by the City.

8.3 The Contract Price and/or Time may only be changed by a Change Order. A fully executed change order for any extra work must exist before such extra work is begun. Any claim for an increase or decrease in the Contract Price shall be based on written notice delivered by the party making the claim to the other party promptly (but in no event later than

15 days) after the occurrence of the event giving rise to the claim and stating the general nature of the claim. The amount of the claim with supporting data shall be delivered (unless the City allows an additional period of time to ascertain more accurate data in support of the claim) and shall be accompanied by claimant's written statement that the amount claimed covers all known amounts to which the claimant is entitled as a result of the occurrence of said event. No claim for an adjustment in the Contract Price will be valid if not submitted in accordance with this Paragraph.

8.4 The Contract Time may only be changed by a Change Order. A fully executed change order must exist prior to extension of the contract time.

8.5 Any claim for an extension of the Contract Time shall be based on written notice delivered by the party making the claim to the other party no later than fifteen (15) days after the occurrence of the event giving rise to the claim. Notice of the extent of the claim shall be delivered with supporting data and stating the general nature of the claim. Contractor hereby agrees to waive rights to recover any lost time or incurred costs from delays unless Contractor has given the notice and the supporting data required by this Paragraph.

8.6 Extensions of time shall be considered and will be based solely upon the effect of delays to the work as a whole. Extensions of time shall not be granted for delays to the work, unless the Contractor can clearly demonstrate that such delays did or will, in fact, delay the progress of work as a whole. Time extensions shall not be allowed for delays to parts of the work that are not on the critical path of the project schedule. Time extensions shall not be granted until all float or contingency time, at the time of delay, available to absorb specific delays and associated impacts is used.

8.7 In the event satisfactory adjustment cannot be reached by the City and the Contractor for any item requiring a change in the contract, and a change order has not been issued, the City reserves the right at its sole option to terminate the contract as it applies to these items in question and make such arrangements as the City deems necessary to complete the work. The cost of any work covered by a change order for an increase or decrease in the contract price shall be determined by mutual acceptance of a Guaranteed Maximum Price by the City and Contractor. If notice of any change in the contract or contract time is required to be given to a surety by the provisions of the bond, the giving of such notice shall be the Contractor's responsibility, and the amount of each applicable bond shall be adjusted accordingly. The Contractor shall furnish proof of such adjustment to the City. Failure of the Contractor to obtain such approval from the Surety may be a basis for termination of this Contract by the City.

9) No Damages for Delays

ALL TIME LIMITS STATED IN THE CONTRACT DOCUMENTS ARE OF THE ESSENCE OF THE AGREEMENT. EXCEPT AS PROVIDED HEREIN, NO CLAIM FOR DAMAGES OR ANY CLAIM OTHER THAN FOR AN EXTENSION OF TIME SHALL BE MADE OR ASSERTED AGAINST THE CITY BY REASON OF ANY DELAYS. Contractor shall not be entitled to an increase in the construction cost or payment or compensation of any kind from City for direct, indirect, consequential, impact or other costs, expenses or damages including but not limited to costs of acceleration or inefficiency, arising because of delay, disruption, interference or hindrance from any cause whatsoever, whether such delay, disruption, interference be reasonable or unreasonable, foreseeable or unforeseeable, or avoidable or unavoidable; provided, however, that this provision shall not preclude recovery

of damages by Contractor for hindrances or delays due solely to fraud, bad faith or active interference on the part of City or its agents. In addition, if Contractor is delayed at any time in the progress of the Work by an act or neglect of the City's employees, or separate contractors employed by the City, or by changes ordered in the Work, or by delay authorized by the City pending arbitration, then the Contract Time shall be reasonably extended by Change Order, and the Guaranteed Maximum Price shall be reasonably increased by Change Order in order to equitably increase the general conditions component of the Guaranteed Maximum Price. Furthermore, if Contractor is delayed at any time in the progress of the Work by labor disputes, fire, unusual delay in deliveries, adverse weather conditions not reasonably anticipated, unavoidable casualties or other causes beyond the Contractor's control, or by other causes which the City and Contractor agree may justify delay, then the Contract Time shall be reasonably extended by Change Order. Otherwise, Contractor shall be entitled only to extensions of the Contract Time as the sole and exclusive remedy for such resulting delay, in accordance with and to that extent specifically provided above. No extension of time shall be granted for delays resulting from normal weather conditions prevailing in the area as defined by the average of the last ten (10) years of weather data as recorded by the United States Department of Commerce, National Oceanic and Atmospheric Administration at the Fort Lauderdale Weather Station.

10) Waiver of Liens

Prior to final payment of the Contract Sum, a final waiver of lien shall be submitted by all suppliers, subcontractors, and/or Contractors who worked on the project that is the subject of this Agreement. Payment of the invoice and acceptance of such payment by the Contractor shall release City from all claims of liability by Contractor in connection with the agreement.

11) Warranty

Contractor warrants the work against defect for a period of one (1) year from the date of final payment. In the event that defect occurs during this time, Contractor shall perform such steps as required to remedy the defects. Contractor shall be responsible for any damages caused by defect to affected area or to interior structure. The one (1) year warranty period does not begin until approval of final payment for the entire project, and the subsequent release of any Performance or Payment Bonds, which may be required by the original bid document.

12) Indemnification

- 12.1** The Contractor shall indemnify and hold harmless the City, its elected and appointed officials, employees, and agents from any and all claims, suits, actions, damages, liability, and expenses (including attorneys' fees) in connection with loss of life, bodily or personal injury, or property damage, including loss of use thereof, directly or indirectly caused by, resulting from, arising out of or occurring in connection with the operations of the Contractor or its officers, employees, agents, subcontractors, or independent Contractors, excepting only such loss of life, bodily or personal injury, or property damage solely attributable to the gross negligence or willful misconduct of the City or its elected or appointed officials and employees. The above provisions shall survive the termination of this Agreement and shall pertain to any occurrence during the term of this Agreement, even though the claim may be made after the termination hereof.

12.2 The City and Consultant recognize that various provisions of this Agreement, including but not limited to this Section, provide for indemnification by the Consultant and requires a specific consideration be given there for. The Parties therefore agree that the sum of Ten Dollars and 00/100 (\$10.00), receipt of which is hereby acknowledged, is the specific consideration for such indemnities, and the providing of such indemnities is deemed to be part of the specifications with respect to the services to be provided by Consultant. Furthermore, the City and Consultant understand and agree that the covenants and representations relating to this indemnification provision shall serve the term of this Agreement and continue in full force and effect as to the City's and the Consultant's responsibility to indemnify.

12.3 Nothing contained herein is intended nor shall be construed to waive City's rights and immunities under the common law or Florida Statutes 768.28, as amended from time to time

13) Non-Discrimination & Equal Opportunity Employment

During the performance of the Contract, the Contractor and its subcontractors shall not discriminate against any employee or applicant for employment because of race, color, sex including pregnancy, religion, age, national origin, marital status, political affiliation, familial status, sexual orientation, gender identity and expression, or disability if qualified. The Contractor will take affirmative action to ensure that employees and those of its subcontractors are treated during employment, without regard to their race, color, sex including pregnancy, religion, age, national origin, marital status, political affiliation, familial status, sexual orientation, gender identity or expression, or disability if qualified. Such actions must include, but not be limited to, the following: employment, promotion; demotion or transfer; recruitment or recruitment advertising, layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Contractor and its subcontractors shall agree to post in conspicuous places, available to its employees and applicants for employment, notices to be provided by the contracting officer setting forth the provisions of this nondiscrimination clause. The Contractor further agrees that he/she will ensure that all subcontractors, if any, will be made aware of and will comply with this nondiscrimination clause.

14) Independent Contractor

This Agreement does not create an employee/employer relationship between the Parties. It is the intent of the Parties that the Contractor is an independent contractor under this Agreement and not the City's employee for any purposes, including but not limited to, the application of the Fair Labor Standards Act minimum wage and overtime payments, Federal Insurance Contribution Act, the Social Security Act, the Federal Unemployment Tax Act, the provisions of the Internal Revenue Code, the State Worker's Compensation Act, and the State Unemployment Insurance law. The Contractor shall retain sole and absolute discretion in the judgment of the manner and means of carrying out Contractor's activities and responsibilities hereunder provided, further that administrative procedures applicable to services rendered under this Agreement shall be those of Contractor, which policies of Contractor shall not conflict with City, State, or United States policies, rules or regulations relating to the use of Contractor's funds provided for herein. The Contractor agrees that it is a separate and independent enterprise from the City, that it had full opportunity to find other

business, that it has made its own investment in its business, and that it will utilize a high level of skill necessary to perform the work. This Agreement shall not be construed as creating any joint employment relationship between the Contractor and the City and the City will not be liable for any obligation incurred by Contractor, including but not limited to unpaid minimum wages and/or overtime premiums.

15) Assignment and Subcontracting

Contractor shall not transfer or assign the performance required by this Agreement without the prior consent of the City. This Agreement, or any portion thereof, shall not be subcontracted without the prior written consent of the city.

16) Notice

Whenever either party desires or is required under this Agreement to give notice to any other party, it must be given by written notice either delivered in person, sent by U.S. Certified Mail, U.S. Express Mail, air or ground courier services, or by messenger service, as follows:

17) Termination

17.1 Termination for Convenience: This Agreement may be terminated by the City for convenience, upon seven (7) days of written notice by City to the Contractor for such termination in which event the Contractor shall be paid its compensation for services performed to termination date, including services reasonably related to termination. In the event that the Contractor abandons

this Agreement or causes it to be terminated, Contractor shall indemnify the city against loss pertaining to this termination.

- 17.2 Default by Contractor:** In addition to all other remedies available to the City, this Agreement shall be subject to cancellation by the City for cause, should the Contractor neglect or fail to perform or observe any of the terms, provisions, conditions, or requirements herein contained, if such neglect or failure shall continue for a period of thirty (30) days after receipt by Contractor of written notice of such neglect or failure.

18) Public Records

- 18.1** The City of Tamarac is a public agency subject to Chapter 119, Florida Statutes. The Contractor shall comply with Florida's Public Records Law. Specifically, the Contractor shall:

18.1.1 Keep and maintain public records that ordinarily and necessarily would be required by the City in order to perform the service;

18.1.2 Provide the public with access to such public records on the same terms and conditions that the City would provide the records and at a cost that does not exceed that provided in chapter 119, Fla. Stat., or as otherwise provided by law;

18.1.3 Ensure that public records that are exempt or that are confidential and exempt from public record requirements are not disclosed except as authorized by law; and

18.1.4 Meet all requirements for retaining public records and transfer to the City, at no cost, all public records in possession of the contractor upon termination of the contract and destroy any duplicate public records that are exempt or confidential and exempt. All records stored electronically must be provided to the City in a format that is compatible with the information technology systems of the agency.

- 18.2** The failure of Contractor to comply with the provisions set forth in this Article shall constitute a Default and Breach of this Agreement and the City shall enforce the Default in accordance with the provisions set forth in Article 17 "Termination" herein.

19) Agreement Subject to Funding

This agreement shall remain in full force and effect only as long as the expenditures provided for in the Agreement have been appropriated by the City Commission of the City of Tamarac in the annual budget for each fiscal year of this Agreement, and is subject to termination based on lack of funding.

20) Venue

This Agreement shall be governed by the laws of the State of Florida as now and hereafter in force. The venue for actions arising out of this agreement is fixed in Broward

County, Florida.

21) Signatory Authority

The Contractor shall provide the City with copies of requisite documentation evidencing that the signatory for Contractor has the authority to enter into this Agreement.

22) Severability; Waiver of Provisions

Any provision in this Agreement that is prohibited or unenforceable in any jurisdiction shall, as to such jurisdiction, be ineffective to the extent of such prohibition or unenforceability without invalidating the remaining provisions hereof or affecting the validity or enforceability of such provisions in any other jurisdiction. The non-enforcement of any provision by either party shall not constitute a waiver of that provision nor shall it affect the enforceability of that provision or of the remainder of this Agreement.

23) Uncontrollable Circumstances

- 23.1** Neither the City nor Contractor shall be considered to be in default of this Agreement if delays in or failure of performance shall be due to Uncontrollable Forces, the effect of which, by the exercise of reasonable diligence, the non-performing party could not avoid. The term "Uncontrollable Forces" shall mean any event which results in the prevention or delay of performance by a party of its obligations under this Agreement and which is beyond the reasonable control of the nonperforming party. It includes, but is not limited to fire, flood, earthquakes, storms, lightning, epidemic, war, riot, civil disturbance, sabotage, and governmental actions.
- 23.2** Neither party shall, however, be excused from performance if nonperformance is due to forces, which are preventable, removable, or remediable, and which the nonperforming party could have, with the exercise of reasonable diligence, prevented, removed, or remedied with reasonable dispatch. The nonperforming party shall, within a reasonable time of being prevented or delayed from performance by an uncontrollable force, give written notice to the other party describing the circumstances and uncontrollable forces preventing continued performance of the obligations of this Agreement.

24) Merger; Amendment

This Agreement constitutes the entire Agreement between the Contractor and the City, and negotiations and oral understandings between the parties are merged herein. This Agreement can be supplemented and/or amended only by a written document executed by both the Contractor and the City.

25) No Construction Against Drafting Party

Each party to this Agreement expressly recognizes that this Agreement results from the negotiation process in which each party was represented by counsel and contributed to the drafting of this Agreement. Given this fact, no legal or other presumptions against the party drafting this Agreement concerning its construction, interpretation or otherwise accrue to the benefit of any party to the Agreement, and each party expressly waives the right to

assert such a presumption in any proceedings or disputes connected with, arising out of, or involving this Agreement.

Q: = Question
A: = Answer

TO ALL PROSPECTIVE BIDDERS:

Please note the bid due date has not changed and is still **03/23/2017 at 3:00 PM**

See RFI questions below:

Q. What's the estimated estimate for this project?

A. We do not have a specific budget for this portion of the project.

Q. Will the city qualify LMK Pipe Renewal with its extensive knowledge and installation history for the past 11 years?

A. Please submit your qualifications with the bid and we will evaluate at the time of bid opening. Include all specific quantities of work performed in all states with your bid.

Q. Would The City consider including the ASTM F2561 standard as the minimum requirement for lateral lining? This standard is used by many municipalities to address the exact concern of experimentation that was expressed at the pre-bid meeting.

A. No

Q. Without a cleanout to evacuate the resin, how is a contractor to remove the excess 5 to 10% resin and not cause a resin slug which can lead to a sewer back up?

A. Contractor is responsible to clean lateral after installation.

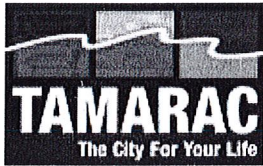

Q. Is it acceptable to install a resin shy liner to ensure there are no resin slugs?

A. No

Q. Will The City require CIPP gaskets as described in ASTM F2561 ASTM F2561-16 Standard Practice for Rehabilitation of a Sewer Service Lateral and Its Connection to the Main Using a One Piece Main and Lateral Cured-in-Place Liner?

A. No

VENDOR DRUG-FREE WORKPLACE

Preference may be given to vendors submitting a certification with their bid/proposal certifying they have a drug-free workplace in accordance with Section 287.087, Florida Statutes. This requirement affects all public entities of the State and becomes effective January 1, 1991. The special condition is as follows:

IDENTICAL TIE BIDS - Preference may be given to businesses with drug-free workplace programs. Whenever two or more bids that are equal with respect to price, quality, and service are received by the State or by any political subdivision for the procurement of commodities or contractual services, a bid received from a business that certifies that it has implemented a drug-free workplace program shall be given preference in the award process. Established procedures for processing tie bids will be followed if none of the tied vendors have a drug-free workplace program. In order to have a drug-free workplace program, a business shall:

Publish a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the workplace and specifying the actions that will be taken against employees for violations of such prohibition.

9. Inform employees about the dangers of drug abuse in the workplace, the business's policy of maintaining a drug-free workplace, any available drug counseling, rehabilitation, and employee assistance programs, and the penalties that may be imposed upon employees for drug abuse violations.
10. Give each employee engaged in providing the commodities or contractual services that are under bid a copy of the statement specified in subsection (1).
11. In the statement specified in subsection (1), notify the employees that, as a condition of working on the commodities or contractual services that are under bid, the employee will abide by the terms of the statement and will notify the employer of any conviction of, or plea of guilty or nolo contendere to, any violation of chapter 893 or of any controlled substance law of the United States or any state, for a violation occurring in the workplace no later than five (5) days after each conviction.
12. Impose a sanction on, or require the satisfactory participation in a drug abuse assistance or rehabilitation program if such is available in the employee's community, by any employee who is so convicted.
13. Make a good faith effort to continue to maintain a drug-free workplace through implementation of this section. As the person authorized to sign the statement, I certify that this form complies fully with the above requirements.

LIST OF SUBCONTRACTORS

The Bidder shall list below the names and business address of each subcontractor who will perform Work under this Bid in excess of one-half of one percent of the Contractor's Total Bid Price, and shall also list the portion of the Work that will be done by such subcontractor. After the opening of bids, no changes or substitutions will be allowed except as otherwise provided by law. The listing of more than one subcontractor for each item of Work to be performed with the words "and/or" will not be permitted. Failure to comply with this requirement will render the Bid as non-responsive and may cause its rejection.

**TRENCH SAFETY FORM**

Bidder acknowledges that included in the appropriate bid items of the proposal and in the Total Bid Price are costs for complying with the Florida Trench Safety Act (90-96, Laws of Florida) effective October 1, 1990. The bidder further identifies the costs of such compliance to be summarized below:

TRENCH SAFETY MEASURE (Description)	UNITS OF MEASURE (LF/SF)	UNIT (Qty)	UNIT COST	EXTENDED COST
A. TRENCH BOX/SHEETING	LF	10	\$ 200.00	\$ 2,000.00
B.			\$	\$
C.			\$	\$
D.			\$	\$
TOTAL	\$ 2,000.00			

If applicable, the Contractor certifies that all trench excavation done within his control in excess of five feet (5') in depth shall be in accordance with the Florida Department of Transportation's Special Provisions Article 125-1 and Subarticle 125-4.1 (TRENCH EXCAVATION SAFETY SYSTEM AND SHORING, SPECIAL-TRENCH EXCAVATION).

Failure to complete the above may result in the bid being declared non-responsive.

CITY OF TAMARAC
INTEROFFICE MEMORANDUM
CITY CLERK'S OFFICE

TO: Michael C. Cernech,
City Manager

DATE: 05/11/2017

THRU: Patricia A. Teufel, City Clerk 

FROM: Lillian Pabon
Assistant City Clerk 

RE: Temporary Resolution #12961,
Appointing one (1) Resident
Trustee to the Firefighters
Pension Board of Trustees

RECOMMENDATION:

Appoint one (1) Resident Trustee to the Firefighters Pension Board of Trustees in accordance with Chapter 16, "Article V, Firefighters Declaration of Trust, Division 2: Board of Trustees, Section 16-331 – Members", of the City of Tamarac Code of Ordinances. Appointed resident trustees shall serve terms of four years, unless sooner replaced by the City Commission at whose pleasure resident trustees shall serve."

ISSUE:

Appointment of one (1) Tamarac resident as Trustee to the Firefighters Pension Board is required as a result of one vacant position due to the resignation of Daniel W. Keefe effective April 21, 2017.

BACKGROUND:

According to Article V, Firefighters Declaration of Trust, Division 2: Board of Trustees, Section 16-331 – Members, the plan shall be administered by five (5) trustees. Two trustees shall be appointed by the City Commission, two trustees shall be elected by a majority of the active firefighters that are plan participants, and a fifth member, shall be selected by the other four Board members, and shall be appointed, as a ministerial act by the City Commission.

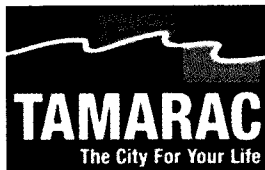

On February 24, 2016, the City Commission appointed Daniel W. Keefe, via Resolution R-2016-22, for a 4-year term expiring February 27, 2020. On March 30, 2017, the Firefighters Pension Administrator received an e-mail from Mr. Keefe rendering his resignation as Trustee on the Firefighters Pension Board effective April 21, 2017 due to of residency relocation outside the City of Tamarac.

Public Notices were advertised in the Sun Sentinel newspaper, Sunday, April 2, 2017 and Sunday, April 16, 2017, publishing the application acceptance period at the City Clerk's Office. To date, two (2) applications have been received, submitted by Mr. Brian Neff and Mr. David Silverbloom and attached for your review.

FISCAL IMPACT:

There is no direct budgetary impact.

**CITY OF TAMARAC
INTEROFFICE MEMORANDUM
FIRE RESCUE DEPARTMENT**

**TO: Michael Cernech
City Manager**

DATE: May 31, 2017

**FROM: Mike Burton,
Fire Chief**

**RE: TR# 12941
Fire Rescue Service Fee
Schedule**

Recommendation:

To place TR #12941 on the Agenda for June 14, 2017 Commission Meeting. The Fire Chief recommends that the City Commission approve the proposed updates based on a Fire Prevention fee phasing schedule from the current Fire Rescue Department Fee Schedule to become effective October 1, 2017.

Issue:

The Fire Rescue Department's Fee Schedule was due for a comprehensive fee study analysis to address required code changes and revisions to the current Fire Rescue Fee Schedule. The existing Fire Prevention fee schedule for Fire Rescue was adopted on September 4, 2004.

Background:

Tamarac Fire Rescue provides services including, but not limited to, basic and advanced life support transport, building inspections, permitting, plan review, new construction review, life safety services, public education, special details, fire watches, disaster management, fire response and other emergency responses in the City of Tamarac. Tamarac Fire Rescue charges fees for these services which are covered under City Code of Ordinances Section 7-29 Fire Service Fees. City Code Section 7-29 (f) requires that service fees be established by Resolution of the City Commission. Service fees are included as revenue in the annual budget process.

The schedule of Fire Prevention fees was originally adopted in 1997, and a revision was approved in 2004 via Resolution R-2004-194, a copy of this resolution is on file with the City Clerk; these fees have not been revised since 2004.

The schedule of Emergency Medical Services (EMS) transport fees was originally adopted in 1999 via Resolution R-1999-270, and two revisions were approved in 2004 via Resolution R-2004-194 and in 2008 via Resolution R-2008-92, a copy of said resolutions are on file with the City Clerk; the EMS transport fees are appropriate and are not to be adjusted in this proposal.

Based on the City of Tamarac Ordinance O-2008-6, a Request for Proposal (RPF #15-04) for a Comprehensive Fee Study was issued on February 1, 2015 by the City of Tamarac Purchasing Department. The City Manager appointed a review and selection committee that

included representatives from Purchasing, the Building Department, Community Development, Fire Rescue, Public Services, and Financial Services. Following a review of responses and ranking the respondents that answered the RPF, the City entered into an agreement with MGT of America, Inc. on May 4, 2015, to perform a Cost of Service Study for Fire Rescue, Community Development that included Planning and Zoning and Business Revenue, Public Services Engineering and the Building Department Schedule of Fees.

A Final Report dated August 2016 for the Cost of Service Analysis provided by MGT of America, Inc. was issued to the City providing the cost of service results of the study (Resource Document from MGT is on file at the City Clerk's Office).

MGT of America's recommendation for each fee for services reflects considerable increases to our fees and is based upon the full cost of providing the services.

After carefully reviewing the fire prevention fees and comparing to other similar size fire departments, the results varied vastly and all other departments reviewed were using different methodologies to determine fees and/or no fee existed for particular types of inspections. Additionally, new fire code requirements created the need for additional inspections not previously charged for.

A special Commission Workshop was held on May 15, 2017 to review proposed changes; modifications were made to the proposed Fire Rescue Dept. fee schedule as follow:

- Addition of the required biannual charge (\$145) for hood fire suppression system inspection for 2,500-5,000 sq. ft. commercial restaurant
- Deletion of charges for Special Event and Site Plan fees

The comparative analysis was done based on user fees that were most similar in demographics and department size. The City Comparative Analysis is attached hereto as Attachment 1.

Based on the results of the Final Report and Staff recommendation, the Fire Chief and Financial Services Director recommend that the City Commission adopt the proposed fees including a phasing schedule for all multiple family residential inspection fees. (as indicated below).

The complete Fire Rescue Department proposed fee schedule showing current and proposed fees is attached hereto as Attachment 2.

Fiscal Impact:

Based upon the analysis and new increased fees designed to recover costs, it is projected that revenue for Fire Rescue once the fee phasing schedule is implemented will increase by approximately:

- 50% of increase beginning October 1, 2017 (FY18) or \$600,000
- an additional 25% increase to 75% beginning October 1, 2019 (FY20) or \$650,000
- an additional 25% increase to 100% beginning October 1, 2021 (FY22) or \$700,000

CITY OF TAMARAC
INTEROFFICE MEMORANDUM (17-05-001M)
COMMUNITY DEVELOPMENT

TO: Michael C. Cernech,
City Manager

DATE: June 2, 2017

FROM: Maxine Calloway,
Director of Community Development

RE: TR # 12942: New Schedule of
Fees for the Community
Development Department

Recommendation: The Director of Community Development recommends that the Mayor and City Commission approve the resolution accepting the new schedule of fees for the Community Development Department at its June 14, 2017 meeting.

Issue: The schedule of fees for the Community Development Department need to be adjusted due to modifications to the development review and code administration process and increases in administering costs associated with development review, code administration and inspection of projects.

Background: The Land Development Regulations of the City of Tamarac Code of Ordinances authorizes the City Commission from time to time, to establish by Resolution, the amount of application fees. The schedule of fees was originally adopted in 1979 and has been adjusted approximately nine (9) times since then with the last modification of just the Development Review Committee Fees occurring in April, 2009 by Resolution R-2009-45.

In addition, the department has multiple fee schedules, with Code Compliance and Business Revenue having its own schedule, separate from Community Development. This process effectively combines all the fees assessed by the Community Development Department (except Business License) into one comprehensive Fee Schedule.

ANALYSIS: The City retained MGT of America to perform a comprehensive analysis of the departments where services are being offered to citizens for which user fees can be collected. Community Development offers an array of property development, special events and code compliance related services to citizens for which user fees can be collected.

MGT of America completed a comprehensive "Cost of Services Analysis" in August of 2016. Within this "Analysis", MGT of America has documented the cost of providing services for which service fees are, or could be assessed for the Community Development Department, which includes Planning and Zoning and Code Compliance fees, and has provided same into a Proposed Fee Schedule. In addition, MGT of America also reviewed the Business Tax Receipt fees and proposed a new schedule, which is not being considered at this time given the simultaneous review of our Land Development Code currently underway. These Business Tax Receipt proposed fees will be further reviewed and revised upon the conclusion of the Land Development Code rewrite process.

MGT of America's recommendation for each fee for all services increased our existing fees dramatically, based on the amount required to cover the full cost of providing the service. Staff's review of the proposed full cost of providing such services revealed that these costs greatly exceeded industry standards for Community Development and Code Administration fees assessed by other municipalities across Broward County.

Staff conducted an independent survey of application fees assessed by municipalities throughout Broward County to compare to the proposed fees contained in the Cost of Services Analysis (see Attachment 1, Comparative Analysis). The Community Development Director has reviewed both the proposed fee schedule provided by MGT of America and the Comparative Analysis of municipalities throughout Broward County and has proposed a new Community Development Fee Schedule which is consistent and competitive with industry standards as opposed to a full cost of service recovery (see Exhibit "A", Community Development Fee Schedule).

The new Community Development Fee Schedule increases the majority of the current fees appropriately to mitigate current costs to process each application while maintaining a consistency with other municipalities. While not all proposed fees represent a full cost recovery of the services provided, the proposed Fee Schedule recommends fees ranging from 18% cost recovery in one instance to over 100% cost recovery in others (primarily with code fees). The new schedule also adds an additional fee for "Architectural Design Peer Review" which will be a service required and added to the Land Development Code (LDC) through the ongoing LDC review project. This will allow for a more intensive architectural review of projects such as Tamarac Village. In addition, the new schedule includes fees for Special Events which have now gotten to be an extensive review process including several City departments.

This item supports the City's Strategic Plan, Goal #5 providing for "A Vibrant Community" by ensuring that Planning and Zoning and Code Compliance fees are competitive and appropriate for current processes and costs.

Fiscal Impact: Based on the number of applications processed by the Community Development Department that were used to develop the fee study, such as platting, rezoning, site plan major and minor, etc., staff has determined that the new proposed fees would generate an estimated increase in revenue of \$31,000 annually. Likewise, for the adjustments to code fees using the number of hearings that were used in the fee study, the estimated increase in revenue is projected at \$3,150 annually.

Maxine Calloway,
Community Development Director

RESOLUTION NO. 2017-_____

A RESOLUTION OF THE CITY COMMISSION OF THE CITY OF TAMARAC, FLORIDA, SETTING A NEW SCHEDULE OF FEES FOR THE COMMUNITY DEVELOPMENT DEPARTMENT TO BECOME EFFECTIVE OCTOBER 1, 2017, ATTACHED HERETO AS EXHIBIT "A", AS A RESULT OF THE CITY OF TAMARAC FLORIDA, AUGUST 2016 COST OF SERVICE STUDY BY MGT OF AMERICA, INC.; REPEALING RESOLUTION NO. R-2009-45; PROVIDING FOR CONFLICTS; PROVIDING FOR SEVERABILITY; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the Land Development Regulations of the City of Tamarac Code of Ordinances authorizes the City Commission from time to time, to establish by resolution, the amount of application fees; and

WHEREAS, Resolution No. R-2009-45, enacted by the City of Tamarac City Commission on April 7, 2009, amended and established the current development review fee schedule; and

WHEREAS, modifications to the development review and code administration process, increases in administering costs associated with development review, code administration and inspection of projects necessitated the need for a review of fees currently being assessed; and

WHEREAS, MGT of America, Inc. was retained by the City to perform a comprehensive analysis of the departments where services are being offered to citizens for which user fees can be collected; and

WHEREAS, the Community Development Department offers an array of property development and code compliance related services to citizens for which user fees can be collected; and

WHEREAS, MGT of America, Inc. has documented the cost of providing services for which service fees are, or could be assessed for the Community Development Department, which includes Planning and Zoning and Code Compliance fees, and has provided same into a Proposed Fee Schedule; and

WHEREAS, MGT of America, Inc. recommended fee for each service is the amount required to cover the full cost of providing the service; and

WHEREAS, the full cost fee as proposed by MGT of America, Inc. greatly exceeds the industry standard for community development and code administration related fees assessed by municipalities across Broward County; and

WHEREAS, the Community Development Director has reviewed MGT of America Inc. proposed full cost community development and code compliance fees compared to fees assessed for the same service across Broward County and recommends the approval of a new Community Development Fee Schedule which is consistent with industry standards as opposed to a full cost of service recovery; and

WHEREAS, the City Commission of the City of Tamarac, Florida deems it to be in the best interest of the citizens and residents of the City of Tamarac to establish a new Community Development Department Fee Schedule to reflect new fee amounts that are in line with industry standards for services and projects within the City.

NOW, THEREFORE BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF TAMARAC, FLORIDA:

SECTION 1: The foregoing “WHEREAS” clauses are hereby ratified and confirmed as being true and correct and are hereby made a specific part of this Resolution upon adoption hereof. All Exhibits attached hereto are expressly incorporated herein and made a part hereof.

SECTION 2: That the Community Development Department Fee Schedule attached hereto as Exhibit “A” and made a part hereof, is hereby approved, to become effective October 1, 2017.

SECTION 3: That Resolution number R-2009-45 is hereby repealed in its entirety.

SECTION 4: That all Resolutions or parts of Resolutions in conflict herewith are hereby repealed to the extent of such conflict.

SECTION 5: If any clause, section, or other part or application of this Resolution is held by any court of competent jurisdiction to be unconstitutional or invalid, in part or application, it shall not affect the validity of the remaining portions or applications of this Resolution.

SECTION 6: This Resolution shall become effective immediately upon its passage and adoption.

City of Tamarac, Florida Policy Renaming of Street

PURPOSE: To establish a formal policy for requesting changes to existing street names within the City of Tamarac

A. Policy

It is the intent of the City of Tamarac to provide a method for changing street names when justified and where such change is supported by a majority of the property owners affected. It is recognized that the changes impose certain costs upon the public including notification of public safety and utility agencies, map changes, and replacement of identification signs. It is the intent of this policy to establish a procedure for such changes and a fee structure that offsets the administrative costs involved.

1. The following are eligible to submit street name change requests:
 - a. A citizen residing on the street to be renamed.
 - b. Civic or homeowners association that represent the affected street.
 - c. Any governmental unit having jurisdiction over the street.
2. Only those streets that are privately maintained or maintained by the City of Tamarac are applicable to this policy. County, State or Federally maintained streets are not eligible for name changes under this policy.
3. Proposed street name changes shall not duplicate any other street name in the City.
4. Proposed street name changes that are deemed inappropriate will not be considered at the discretion of the City.
5. A Resolution by the City Commission will be required to approve a street name change.

6. Only numbered streets (i.e. N.W. 77th Street) are eligible to be changed under this policy.
7. Signs for renamed numbered streets shall include the former numbered street and new name.
8. New street names shall remain in perpetuity and are not eligible to be changed again unless City Commission deems it to be a necessity.
9. The applicant will be responsible for the cost (installation and maintenance) of all new signs on privately owned/maintained roads.

B. Procedure

1. Applications for a street name change shall be filed with the Community Development Department and be submitted on the form shown on Page 3 of this policy titled, "Request for Street Name Change" with the fee.
2. The application must include a justification for the proposed change.
3. City staff shall mail a notice of the proposed street name change to all property owners (as established by the County Assessors roll), which may be affected by the proposed change.
4. All affected public agencies are notified of the proposal and requested to comment on the proposed change within 30 days.
5. Community Development staff will analyze the feedback from the notice along with the comments from public agencies.
6. Community Development staff will mail a notice to property owners informing them of the date of the hearing by the City Commission.
7. At the scheduled hearing, Community Development staff will make a presentation to the City Commission with the results of the analysis.
8. The City Commission will then take action to approve, deny, or continue the request to another scheduled City Commission hearing.
9. If the street name change is approved, City staff will mail final notices to all property owners affected by the change and all affected public agencies.
10. City staff will make necessary changes to City maps.
11. The City staff will request the installation of new street signs from Broward County for publicly maintained streets.

REQUEST FOR RENAMING OF STREET

A fee of \$200 shall be submitted with this request to cover the costs of mailing notices, amending maps, and other administrative costs associated with review and analysis of the request. The fee is non-refundable regardless of the outcome of the request as determined by the City Commission.

For Privately owned/maintained roads, the requestor will also be responsible for the purchase, installation, and maintenance of all needed signs, through a private sign manufacturer, including those instances where the road connects to a publicly maintained road.

COMMUNITY DEVELOPMENT DEPARTMENT**

**COST OF SERVICE STUDY
SERVICE FEE DETAIL**

Description of Department

The Community Development Department oversees growth and development in the City of Tamarac. The department is comprised of five divisions: Planning and Zoning, Business Revenue, Housing, Code Compliance, and Economic Development. MGT was contracted to analyze only specific programs within the Community Development Department. The following program areas were selected for analysis:

- Planning and Zoning
- Code Compliance
- Business Revenue

Planning and Zoning Division (3010)

The mission of the Planning and Zoning division is to ensure the quality of the built environment through innovative revitalization efforts and land use planning, in a proactive, responsive, and efficient manner while enhancing and maintaining the community's unique character.

All Planning and Zoning costs identified in this report are the fiscal year 2016 expenditures budgeted to perform the services. All City-wide General Fund Overhead costs allocated to the Planning and Zoning Division by the City have been included to identify the full cost of providing services. Time estimates for several fees includes other City staff outside of the Community Development staff. For purposes of calculating full cost of service, we estimated a \$100/per hour per staff time.

The following service areas within the Planning and Zoning Division were reviewed:

Recommendations

It is recommended that the following fees be established within the Planning and Zoning Division. It is further recommended that the City request its legal advisor research appropriate ordinances and statutes to determine if the City has the legal authority to adjust existing fees or establish new fees as well as to identify any implementation procedures prior to any formal fee determinations. The following section details the full cost to provide the service and the recommended fee for each service area. The recommended fee is the amount required to cover the full cost of providing the service.

Code Compliance Division (3020)

The mission of the Code Compliance Division is to protect and enhance property values, maintain community appearance and standards, and to preserve the quality of life in our Community through the enforcement of City Codes and Ordinances. Compliance is achieved through communication with and the education of our residents and business owners, utilization of approved inspection techniques; investigation of complaints; and if required, the imposition of fines and liens through a quasi-judicial hearing process and the issuing of uniform citations. These processes act to provide an equitable, expeditious, and effective method of enforcing the Code of Ordinances.

The following service areas within the Code Compliance Division were reviewed:

Business Revenue Division (3030)

The goals and objectives of the Business Revenue Division include maintaining a fiscally healthy environment for the City and improving customer service to the business community. The Division seeks to provide a high level of responsiveness and a positive approach to the needs of the business community. This can be achieved through annual inspections, providing a balanced approach to attract and retain businesses and by utilizing the best business practices to decrease the average processing time of all business license applications from the time of submittal to the issuance of the license.

Pursuant to Florida Statutes 205.0535(4), the City has the ability to increase Business Tax Receipt Fees ("Fees") by up to five (5%) percent every other year. Since the adoption of the original Equity Study in 1995, the City has opted to increase its Fees by five (5%) percent every two years, with the last increase occurring in July, 2008.

Since 2009, the City has experienced an upward trend in the issuance of Business Tax Receipts. Based on Florida Statutes, the business tax rate structure and classifications in the City of Tamarac's adopted ordinance must be reasonable and based upon the rate structure and classifications prescribed in ordinances adopted by adjacent local governments that have implemented s. 205.0535.

Recommendations

MGT worked with City staff to identify the most common Business Tax categories. These categories were compared to Tamarac's adjacent neighbors, including North Lauderdale, Sunrise and Coral Springs. The results indicate that for all but a few categories, Tamarac's Business Taxes are in the mid-range of what its adjacent contiguous neighbors charge.

Accordingly, in compliance with Florida Statutes 205.0535(4), MGT recommends the City increase all Business Tax Receipt fees by 5%. In 2015 Business Taxes generated \$761,541 revenue. A 5% increase will add \$38,077 revenue annually.

The results of the survey and the fee increase recommendations are presented on the following pages. Please note that the categories presented reflect only a portion of the City's Business Tax categories and that not all categories have a corresponding match with each adjacent neighboring city.

CITY OF TAMARAC
INTEROFFICE MEMORANDUM
PUBLIC SERVICES DEPARTMENT

TO: Michael C. Cernech,
City Manager

DATE: June 2, 2017

THRU: Jack Strain, Public Services Director

FROM: John E. Doherty,
Assistant Director of Public
Services / Capital Projects Manager

RE: TR # 12943: New Schedule of
Fees for the Public Services
Department, Engineering
Division – June 14, 2017
Commission Agenda

Recommendation:

The Public Services Director recommends that the Mayor and City Commission approve the Resolution accepting the new schedule of Engineering Division Development Review Fees for the Public Services Department at its June 14, 2017 meeting.

Issue:

Acceptance of the new schedule of Engineering Division Development Review Fees for the Public Services Department, to mitigate current costs to provide these services and to maintain consistency with industry standards and other Broward County municipalities.

Background:

The Land Development Regulations of the City of Tamarac Code of Ordinances authorizes the City Commission from time to time, to establish by Resolution, the amount of application and review fees. The City of Tamarac Engineering Division Permit and Development Review Fees were originally adopted in 1979. The Engineering Division Permit Fees have been adjusted several times since adoption, with the last modification in April 2011, by Resolution R-2011-43; however, the Development Review Fees have not been adjusted since adoption. The current Engineering Division Development Review Fees are consistently below what is charged in similar Broward County Communities; and significantly below full cost recovery.

The methodology and supporting data used to develop the recommended new schedule of Engineering Division Development Review Fees, was presented to the City Commission at the May 15, 2017 Special Workshop.

ANALYSIS:

The City retained MGT of America to perform a comprehensive analysis of the departments where services are being offered to citizens for which user fees can be collected. The Public Services Engineering Division offers an array of property development related services to citizens for which user fees can be collected.

MGT of America completed a comprehensive "Cost of Services Analysis" in July of 2016 (Resource Document from MGT is on file at the City Clerk's Office). Within this "Analysis", MGT of America has documented the cost of providing services for which service fees are, or could be assessed, for the Engineering Division, which includes Engineering Division Development Review Fees, and has provided same in a Proposed Fee Schedule.

MGT of America's recommendation for each fee for all services increased our existing fees dramatically, based on the amount required to cover the full cost of providing the services. Staff's review of the proposed full cost of providing such services revealed that these costs greatly exceeded industry standards for Engineering Division/Department Development Review Fees assessed by similar municipalities across Broward County.

Staff conducted an independent survey of comparative fees assessed by municipalities throughout Broward County to compare to the proposed fees contained in the Cost of Services Analysis (see Exhibit "B" - Engineering Division Fee Study Comparison). While conducting the independent survey, it was discovered that many municipalities across the County use far different methodologies to determine Engineering Division Development review fees; therefore, the municipalities selected for the comparative survey are municipalities that are most similar in comparison and determination of our Engineering Division Development Review Fees.

The Public Services Director has reviewed both the proposed fee schedule provided by MGT of America and the Fee Study Comparison of municipalities throughout Broward County and has proposed a new Engineering Division Development Review Fee Schedule, which is consistent and competitive with industry standards as opposed to a full cost of service recovery (see Exhibit "A" - Engineering Division Proposed Development Review Fee Schedule).

The new Development Review Fee Schedule increases the majority of the current Engineering Division Fees appropriately to mitigate current costs to process development applications, while maintaining consistency with Engineering Division/Department Development Review Fees assessed by similar municipalities across Broward County.

This item supports the City's Strategic Plan, Goal #5 providing for "A Vibrant Community" by ensuring that Planning and Zoning and Code Compliance fees are competitive and appropriate for current processes and costs.

Fiscal Impact:

Using the number of the various applications received by Community Development that have an engineering component for Land Use reviews, platting, site planning, delegation requests, and vacation of easements/right-of-ways that were used to develop the fees in the fee study, the estimated increase in revenue would have been \$11,500.00.

CITY OF TAMARAC, FLORIDA

RESOLUTION NO. 2017-_____

A RESOLUTION OF THE CITY COMMISSION OF THE CITY OF TAMARAC, FLORIDA, SETTING A NEW SCHEDULE OF ENGINEERING DIVISION DEVELOPMENT REVIEW FEES FOR THE PUBLIC SERVICES DEPARTMENT, TO BECOME EFFECTIVE OCTOBER 1, 2017, ATTACHED HERETO AS EXHIBIT "1"; PROVIDING FOR CONFLICTS; PROVIDING FOR SEVERABILITY; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City of Tamarac Code of Ordinances authorizes the City Commission from time to time, to establish by resolution, the amount of fees, including but not limited to Engineering Division Development Review Fees; and

WHEREAS, MGT of America, Inc. was retained by the City to perform a comprehensive analysis of the departments where services are being offered to citizens for which user fees can be collected; and

WHEREAS, the Public Services Department offers an array of permit and plan review related services to citizens for which user fees can be collected; and

WHEREAS, MGT of America, Inc. has documented the cost of providing services for which service fees are, or could be assessed for the Public Services Department, which includes Engineering Division Development Review Fees, and has provided same into a Proposed Fee Schedule; and

WHEREAS, MGT of America, Inc. recommended fee for each service is the amount required to cover the full cost of providing the service; and

WHEREAS, the full cost fee as proposed by MGT of America, Inc. greatly exceeds the industry standard for Engineering Division Development Review Fees assessed by municipalities across Broward County; and

WHEREAS, the Public Services Director has reviewed MGT of America Inc. proposed full cost community development and code compliance fees compared to fees assessed for the same service across Broward County and recommends the approval of a new Engineering Division Development Review Fee Schedule (attached hereto as Exhibit "1"), which is consistent with industry standards as opposed to a full cost of service recovery; and

WHEREAS, the City Commission of the City of Tamarac, Florida deems it to be in the best interest of the citizens and residents of the City of Tamarac to establish a new Engineering Division Development Review Fee Schedule to reflect new fee amounts that are in line with industry standards for services and projects within the City.

NOW, THEREFORE BE IT RESOLVED BY THE CITY COMMISSION OF THE CITY OF TAMARAC, FLORIDA:

SECTION 1: The foregoing "WHEREAS" clauses are hereby ratified and confirmed as being true and correct and are hereby made a specific part of this Resolution upon adoption hereof. All Exhibits attached hereto are expressly incorporated herein and made a part hereof.

SECTION 2: That the Engineering Division Public Services Department Schedule of Plan Review & Permit Fees attached hereto as Exhibit "1" and made a part hereof, is hereby approved to become effective October 1, 2017.

SECTION 3: That all Resolutions or parts of Resolutions in conflict herewith are hereby repealed to the extent of such conflict.

SECTION 4: If any clause, section, or other part or application of this Resolution is held by any court of competent jurisdiction to be unconstitutional or invalid, in part or application, it shall not affect the validity of the remaining portions or applications of this Resolution.

SECTION 5: This Resolution shall become effective immediately upon its passage and adoption.

PASSED AND ADOPTED BY THE CITY COMMISSION OF THE CITY OF TAMARAC,

ENGINEERING DIVISION, PUBLIC SERVICES DEPARTMENT

SCHEDULE OF PLAN REVIEW & PERMIT FEES

As set forth in Section 10-157 of The Code of The City of Tamarac, Florida, following approval of the final site development plan by the City Commission and posting of all required public improvement bonds and payment of fees, the owner of the land being developed, or his bona fide agent, is required to take out an improvement permit with the City for all land improvements occurring on public or private property. No improvement or alteration of any existing public or private property or utility shall be allowed without a city improvement permit issued for such specific improvements. The permit shall be visibly displayed at all times during construction.

As set forth in Section 20-41 of The Code of The City of Tamarac, Florida, no person shall open any street of median or alter or cut any curb adjacent to any street or thoroughfare without first obtaining a permit from the City authorizing such alteration or change of pavement or median cut.

The Schedule of Permit Fees shall apply to the following:

- For any construction or improvements that are associated with land development or redevelopment as covered by Chapter 10 or elsewhere in the Tamarac City Code, exclusive of that work covered through the required Building Department Permit fees or required Community Development Department improvement fees, whether on public or private property.
- For any construction or improvements in roadway or medians, or within the City's roadway rights-of-way, water and sewer easements, utility easements, or other public easements, as covered in Chapter 20 or elsewhere in the Tamarac City Code.

**CITY OF TAMARAC
INTEROFFICE MEMORANDUM
BUILDING DEPARTMENT**

TO: Michael C. Cernech, City Manager DATE: June 1, 2017

**FROM: Claudio Grande, Chief Building
Official / Department Director** **RE: TR# 12944: Review of Building
Department permit fees**

Recommendation

Review the MGT Cost of Services Analysis report and proposed fee adjustments.

Issue

Address updates and revisions to the current Building Department Fee Schedule.

Background:

City Ordinance O-2008-6 requires the City Manager, or his designee, review building permit fees and determine adjustments of building inspections, permitting and plan review services.

As such and in compliance with the City of Tamarac Ordinance 2008-06, Sec. 5-1 Building Department Fees, the City Manager, or his designee, shall review the effects of inflation and other costs, such as labor and materials, to determine whether the building permit fees require further adjustment, with the first such adjustment to be effective October 1, 2010, at that time the City retained the services of Willdan Financial Services (formerly Muni Financial Inc.) to review the proposed fees and staff recommendations and comment as appropriate. The time analysis and schedule of costs was approved by the City Commission and became effective on October 1, 2010.

In compliance with the City of Tamarac Ordinance, the Chief Building Official/Building Director reviewed the fee schedule approved in October of 2010 and came up with further adjustments to the existing fee schedule due to additional work performed by the Building Department not set in the existing fee schedule and trying to be competitive and standard in fees charged throughout Broward County by other municipalities.

In August 2012 the City Commission adopted a revised Building Permit Fee Schedule (R-2012-106) based on an assessment undertaken by staff designed to match the time and effort (direct cost) associated with the various services provided by the Building Department to the fees charged for such services. This revised schedule of permit fees became effective on October 1, 2012.

Based on the City of Tamarac Ordinance O-2008-6, a Request for Proposal (RPF #15-04) for a Comprehensive Fee Study was issued on February 1, 2015 by the City of Tamarac Purchasing

Department. The City Manager appointed a review and selection committee that included representatives from Purchasing, the Building Department, Community Development, Fire Rescue, Public Services, and Financial Services. Following a review of responses and ranking the respondents that answered the RPF, the City entered into an agreement with MGT of America, Inc. on May 4, 2015, to do Cost of Service Study for Fire Rescue, Community Development that included Planning and Zoning and Business Revenue, Public Services Engineering and the Building Department Schedule of Fees.

A Final Report dated August 2016 for the Cost of Service Analysis provide by MGT of America, Inc. was issued to the City providing the cost of service results of the study (Resource Document from MGT is on file at the City Clerk's Office).

Based on the results of the Final Report, a presentation was made to the City Commission at the May 15, 2017 Workshop explaining in detail the proposed changes to the building department permit fees. Furthermore, after reviewing some of the comments made by the Commission in reference to permits related to residential additions, further adjustments were made to the proposed fee schedule for permits related to residential additions so as not to discourage residents to obtain the required permits for this type of work. It is my recommendation that the City Commission adopt the proposed fee schedule (Exhibit A – see attached) designed to recover 70 to 100% of costs of providing this valuable mandated service.

This item supports the City's Strategic Plan, Goal #5 providing for "A Vibrant Community" by ensuring that the Building Department fees are competitive and appropriate to provide cost recovery of the expenses incurred by the Department in providing their services.

Fiscal Impact:

Based on the number of permits processed by the Building Department that were used to develop the fee study, staff has determined that the new proposed fees would have generated an estimated increase in revenue of \$407,000.

CITY OF TAMARAC BUILDING DEPARTMENT

Schedule of Permit Fees

SECTION I: As set forth in Section 105 of the Broward County Amendments to the 2010 **5th Edition (2014)** Florida Building Code, it is unlawful for any person, firm, or corporation to fail to acquire a proper permit prior to the commencement of any construction, alteration, or repair on or within private property, and such act is punishable as provided in Section 1 - 13 of the Tamarac City Code.

SECTION II: In the event of an emergency requiring immediate repairs a person or firm may proceed with such repairs; provided however, an application for the permit and the payment of appropriate fees are made during the first succeeding business day of the City Building Department. Failure to do so may be subject to a penalty for commencing work without a permit as provided in Section B #18 of this fee schedule.

SECTION III: All permits for new construction, including permits for building, alterations, miscellaneous, signs, swimming pools, plumbing, electric and mechanical, shall include a fee for training and education of Building Department personnel of \$0.30 per thousand dollars of estimated cost.

SECTION IV: No permit shall be required for general maintenance or repairs which do not change the occupancy, structural integrity, and the value of which does not exceed one thousand five hundred (\$1,500.00) dollars in labor and material as determined by the Building Official.

SECTION V: As per City of Tamarac Ordinance No. 0-2004-15 Addition Article XI, entitled "Public Art Program", a Public Art Fee will be assessed based on construction value of improvements to real property in the City of Tamarac as provided for in Section 5-304. Public Art Fees shall be collected at the time of permit issuance.

CITY OF TAMARAC BUILDING DEPARTMENT

Schedule of Permit Fees

SECTION I: As set forth in Section 105 of the Broward County Amendments to the **5th Edition (2014)** Florida Building Code, it is unlawful for any person, firm, or corporation to fail to acquire a proper permit prior to the commencement of any construction, alteration, or repair on or within private property, and such act is punishable as provided in Section 1 - 13 of the Tamarac City Code.

SECTION II: In the event of an emergency requiring immediate repairs a person or firm may proceed with such repairs; provided however, an application for the permit and the payment of appropriate fees are made during the first succeeding business day of the City Building Department. Failure to do so may be subject to a penalty for commencing work without a permit as provided in Section B #18 of this fee schedule.

SECTION III: All permits for new construction, including permits for building, alterations, miscellaneous, signs, swimming pools, plumbing, electric and mechanical, shall include a fee for training and education of Building Department personnel of \$0.30 per thousand dollars of estimated cost.

SECTION IV: No permit shall be required for general maintenance or repairs which do not change the occupancy, structural integrity, and the value of which does not exceed one thousand five hundred (\$1,500.00) dollars in labor and material as determined by the Building Official.

SECTION V: As per City of Tamarac Ordinance No. 0-2004-15 Addition Article XI, entitled "Public Art Program", a Public Art Fee will be assessed based on construction value of improvements to real property in the City of Tamarac as provided for in Section 5-304. Public Art Fees shall be collected at the time of permit issuance.
